

Printing and Finishing Guidelines

KPP/signature

KPP Signature ES - Ultra fine paper and board range with a very smooth and velvety surface and a clear look-through. Made with FSC certified E.C.F. (Elemental Chlorine Free) pulp. Its characteristics provide perfect on-press performance, excellent ink yield and brilliant printed results. It is excellent for packaging and graphic materials such as labels, covers, inserts, deluxe brochures. It is particularly suitable for letterheads and writing papers. Suitable for offset pre-printing and subsequent printing on toner-based laser printers.

Application

- Packaging
- Stationery
- Greeting Card
- Labels
- Covers
- Inserts
- Brochure

Printing and Finishing

- Suitable for letterpress, offset, blind embossing, hot foil stamping, thermography and screen printing.
- Suggest to use oxidative drying inks.
- Good chromatic and tone performance, ink load, dot gain and printing contrast are at the highest levels obtainable from uncoated papers.
- Good results with major processing operations such as: cutting, die-cutting, scoring, folding and gluing.

Environmental Information

- FSC™ certified
- Elemental Chlorine Free (ECF)
- Acid-free

KPP/signature

KPP Signature Wove - Premium quality uncoated papers and boards with a velvety surface. Made with 75% E.C.F. (Elemental Chlorine Free) FSC certified pulp and 25% cotton fibre. Available in Bright White and Classic White. The range offers superior softness, long-life and strength. Ideal for stationery, publications, deluxe brochures, elegant packaging, invitation cards and marketing communication materials. Well suited for offset printing and subsequent printing on toner-based laser printers.
